

Phishing Attacks

Malicious attempts to steal sensitive information.

Phishing lures with deceptive links,
Tempting clicks where danger slinks.
Emails, texts, even calls disguise,
Be wary, for the fraudster lies.

Recognize

Identify suspicious emails, texts or calls.

1

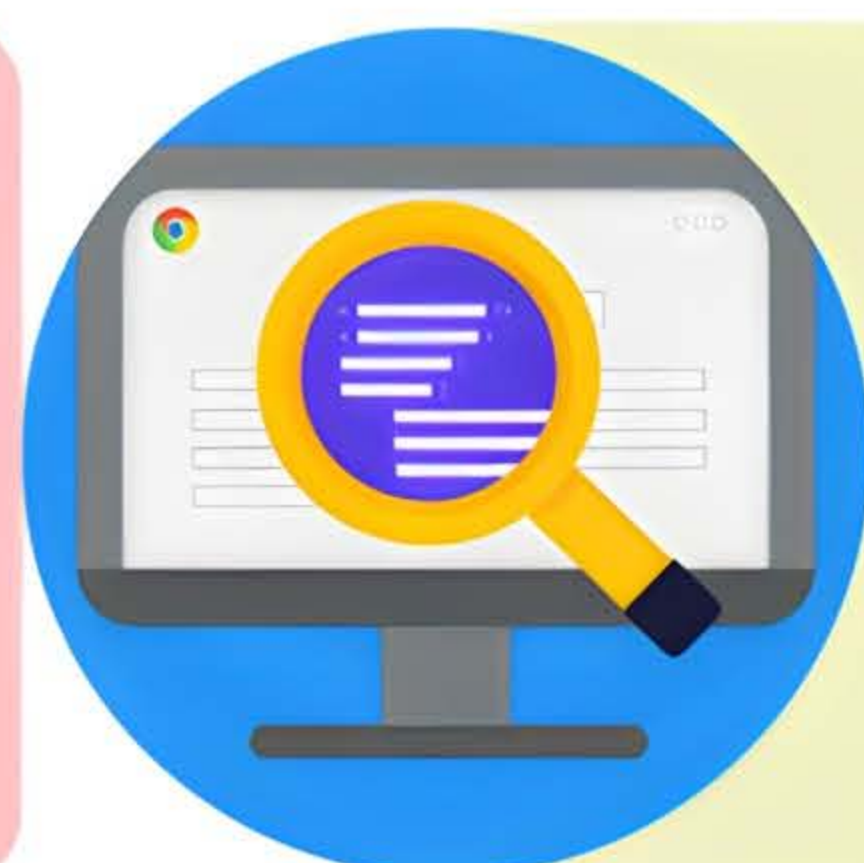

Check the sender, scrutinize each mail,
Before you fall for the scammer's tale.
Misspellings, odd addresses may betray,
The phishing net, keep threats at bay.

Inspect

Examine sender's address and legitimacy of content.

2

Hover over links, don't click in haste,
Phishing traps can be defaced. Verify requests,
don't blindly trust, In the realm of phishing,
skepticism's a must

Avoid

Never click links or open attachments from unknown sources.

3

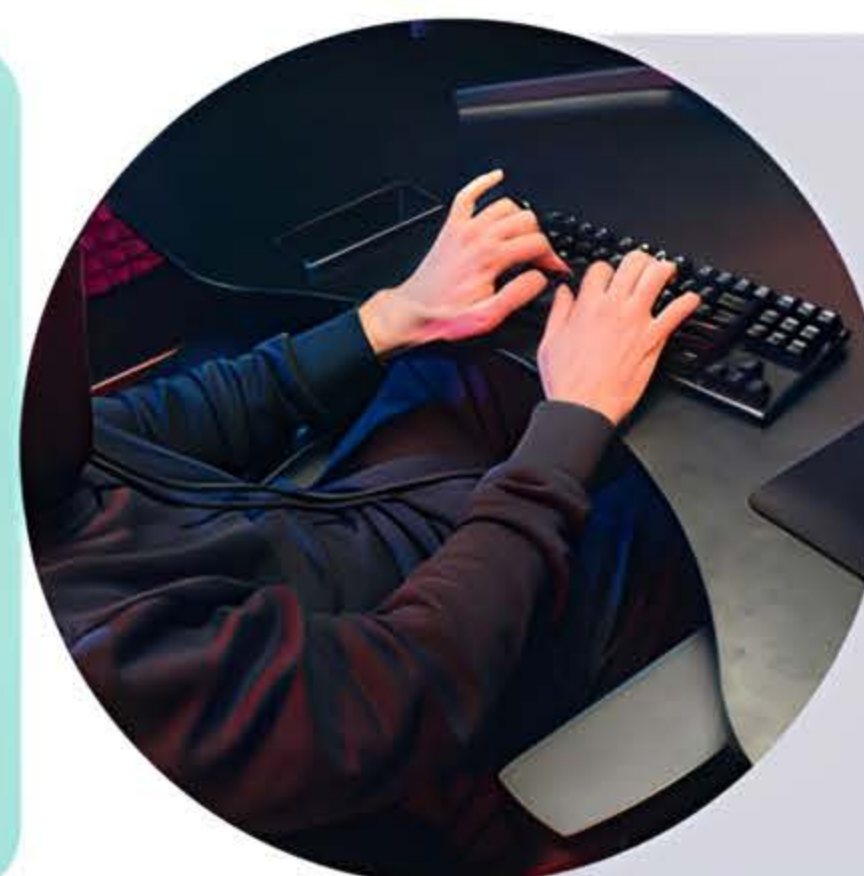

Don't share sensitive info in a rush,
Protect yourself, avoid the phishing crush.
Keep software updated, defenses strong,
Against the phisher's deceitful song.

Report

Flag suspicious emails to your email provider.

Notify authorities, don't let fraud thrive,
Reporting phishing keeps our data alive.
Banks, platforms, they need to know,
To halt the phishing flow's toxic flow.

4

Educate

Stay informed about latest phishing tactics and share knowledge with others.

Spread awareness, knowledge empowers,
Against phishing, education towers. Train your team,
family, and friends, To navigate safely where the phishing trend ends.

5

Stay Vigilant

Protect yourself from falling victim to phishing attacks by being alert and informed.

Phishing evolves, morphs with time, Stay vigilant to avoid the crime. Trust your instincts, if it seems askew,
Stay alert, protect what's true.
